2.A.12 The curriculum guides teachers to plan for children's engagement in play that is integrated into classroom topics of study.

Activity:

1. Sorting the Colors
2. Freeze Dance
3. Puppet Play

Resources and materials needed:

Sorting the Colors

- Yellow and Pink Bowl
- Yellow and Pink plastic shapes

Freeze Dance

- Music player with different nursery rhymes

Puppet Play

- Animal puppets

Procedures:

Sorting the Colors: Chose two colors (yellow and pink) that have very little in common with each other and look nothing alike. Think how confusing red and pink must look to a young one! Selected about 10 of each color (we are keeping it simple). Introduce the activity by saying "Today, we are going to sort colors! We are going to put yellow in this bowl and pink in this bowl." Then model the entire activity for the children. As you model the activity, sit next to the children or have them to sit in your lap and show them exactly what you are doing. Also do the narration of every move you make. Once you finished, dump them out on the floor or table have each child try to sort.

Freeze Dance: Play CD/ Music Player that has nursery rhyme music. When the music is playing have the children to dance when music stops have them to freeze. If anyone moves why the music is off they have to do 19 jumping jacks to get back in the game.

Puppet Play: Have children to sit in a circle and have the animal puppets help the children count to 19 and say the alphabet. Talk with children about the different things that happen in winter. Allow children to touch the puppets and ask questions to the puppets.

Adjustments for Children with Special Needs: Teachers need to make sure that the child is able to see and able to access the activity. Only if child ask or look like they need help will the teacher assist in the activity
