

# Living or Nonliving?

By Deanna Jump

Living things move, breathe,  
eat, grow and make more of  
themselves.

Living things need food  
and water to live.

Is a plant a living thing?

Yes, a plant is living!

Is a ball a living thing?

No, a ball is non-living!

Is a giraffe a living thing?

Yes, a giraffe is living!

# living

Living things move, breathe, eat,  
grow and make more of themselves.

Is a sign a living thing?

No, a sign is non-living!

Is a pig a living thing?

Yes, a pig is living!

Is a car a living thing?

No, a car is non-living!

Is a kid a living thing?

Yes, a kid is living!

Living and non-living things  
are everywhere!
